## A Message from the Waycross Mayor, Dr. Michael-Angelo James

To you, the workers, residents, stakeholders, and concerned citizens who make Waycross your home, this budget document is something I'm especially proud to share. Our yearly budget tells us about our collective commitment to good stewardship, careful development, and positioning our city as a thriving community for all.

Like an annual report of a big corporation, this budget reports the important details of how our financial resources are being used. It is critical that you, as taxpayers, property owners, business owners, and residents, understand how money is spent to fund basic services, spur development, and enhance quality of life. This report acts as an open book to how we make financial choices, presenting the way that we invest in infrastructure, public safety, economic development, and community programs. Waycross City Commission sets the policies that guide our city's growth, and our diligent employees and contractors carry them out day by day. They are vital to making Waycross the best it can be, and I am eternally thankful for their commitment to our community.

As we continue to serve you, I encourage you to become involved—whether by sharing your ideas with us, providing feedback, or participating on our Boards and Commissions. Your voice is instrumental in shaping Waycross' future. From planning and zoning to urban redevelopment and the environment, there are numerous opportunities for you to become involved.

This budget also gives us the opportunity to look back at what we have accomplished and imagine new opportunities for the future. In looking at the whole picture of where we are, we can bask in our success while seeing new areas of opportunity for growth and development. Every year brings new challenges and new opportunities, and as a team, we will keep building from our solid foundation.

Serving as your mayor is a humbling and rewarding experience. I am honored to represent this great city, and I eagerly look forward to working with each of you in building a bright future for Waycross. We are ready to roll up our sleeves, get to work, and move ahead with leadership, guidance, and wise progress.

I want you to know that my door is always open and I would like to hear your ideas regarding how we can serve our community better. Let's continue working together to make Waycross an even better place to call home.

All the Best,

Dr. Michael-Angelo James  
66th Honorable Mayor, City of Waycross

Year In Review

## A Message from the City Manager, Ulysses “Duke” Rayford

The City of Waycross remains committed to providing fiscally responsible, high-quality services that meet the evolving needs of our residents and businesses. With a total operating budget exceeding \$42 million, the City continues to invest in infrastructure, public safety, workforce development, and community enhancement initiatives—all guided by sound financial planning and a focus on results.

Our organization is powered by more than 200 dedicated employees across nine departments, each working together to deliver efficient, transparent, and responsive municipal services. These departments—Administration, Finance, Public Works, Engineering, Human Resources, Public Safety (Police and Fire), Business Integration & Information Systems, and Community Improvement—are the backbone of city operations and play a critical role in fulfilling our mission.

In FY 2025, the City made significant strides in aligning resources with strategic goals. We implemented staff development initiatives, integrated customer service training, and adopted data-driven analytics to improve decision-making across departments. Continuous assessment of our procedures, processes, and programs ensures we remain compliant, efficient, and community-focused. Additionally, the City conducted a comprehensive review of the Capital Improvement Plan (CIP), aligning major investments with our operating budget and long-term goals as outlined in the Strategic Comprehensive Business Plan. These efforts support the Commission’s enduring priorities: ensuring public safety, cultivating a strong local economy, and governing with transparency and accountability.

The FY 2025 year-end update and financial summary serve as both a fiscal report and a community progress snapshot. It highlights the accomplishments of each city department and reinforces the importance of our shared mission and vision:

**Vision Statement:** *"The City of Waycross is a dedicated workforce enhancing quality of life while driving service excellence in support of its citizens and communities."*

**Mission Statement:** *"To provide open, honest, and fiscally responsible quality public services to the citizens of Waycross."*

Waycross has much to celebrate this year. From modernizing our Information and Automation Systems to improving service delivery and investing in workforce excellence, we are continuously raising the standard for municipal operations. We remain focused on our city's priorities, fostering an environment of trust, accountability, and growth.

Waycross is truly a City of Opportunity—and we're just getting started.

A handwritten signature in black ink that reads "Ulysses Duke Rayford". The signature is fluid and cursive, with the first letters of each word being capitalized.

MAYOR & COMMISSION  
GUIDING PRINCIPLES

## Year In Review

## City In Brief

Waycross, gateway to the world famous Okefenokee Swamp, is the focal point of the highways and railroad lines traversing southern Georgia, its name signifies its strategic position of where "Ways Cross". In colonial days, it was the hub of stagecoach roads and pioneer trails. Later the old Plant System and the Brunswick and Western Railroad lines crossed here, giving birth to a modern railroad network. Indian trails, coach roads and military trails transformed into modern highways, with some following the routes laid out by the pioneers. Waycross was founded in 1872, chartered in March 3, 1874, and incorporated on November 1, 1889.

Transportation continues to play a dramatic part of Waycross. Located in the City limits is the CSX Rice Yard, one of the largest rail car switching and classification facilities in the United States. This facility occupies 850 acres and contains more than 150 miles of rail track handling over 1 million rail cars a year.

Waycross thrives on widely diversified manufactured, processed forest and tobacco products. Transportation facilities, modern health specialties and educational opportunities are above average, and careful attention to recreational amusements, entertainment, cultural and civic activities are given. The area is a communication, financial, medical, industrial and religious center, serving an eight county region with a population of 138,033. Inside the City Limits according to the 2023 Census, Waycross has a population of 13,714. During working hours the population of the City grows to over 40,000. These temporary residents come to work at and/or use the modern health care facilities, educational institutions, financial centers, industrial concerns and large and small retail/commercial businesses located in Waycross.

Waycross is blessed with an abundance of water and climate conducive to year round production without stoppage due to weather. The average minimum and maximum temperature range from 38.8 and 68.9 degrees for January, and 69.9 and 92.3 degrees in July.

### Waycross, GA

2023 Population - 13,813; 0.31% 1-year decline  
2023 Median Age - 35.5; 2.31% 1-year increase  
2023 Poverty Rate - 34.4%; 1.9% 1-year increase  
2023 Median Household Income - \$37,398; 1.58% 1-year growth  
2023 Employed Population - 4,579; 3.11% 1-year growth

## Our Guiding Principles

### *We Value:*

- **Our Employees and All People**  
We support the professional development of our employees and we value the diversity in our employees and all people.
- **Fiscal Accountability**  
We value the trust our citizens have placed in our hands to be stewards of the financial resources entrusted in us.
- **Integrity and Honesty**  
We will hold ourselves and each other as public servants to the highest standards of integrity and honest conduct.
- **Innovation and Creative Solutions**  
We will strive to find innovative and creative solutions to the challenges facing our city and the more productive operation of our departments.
- **Responsive Customer Service**  
We value our customers and the relationships we have with the citizens of Waycross and we will hold customer service to the foundation of every interaction.
- **Responsible and Ethical Behavior**  
We will strive in every aspect of city business to be responsible decision makers and conduct ourselves in accordance with the highest standard of ethical behavior.
- **Transparency**  
Our every action will pass the scrutiny of transparency and open government and our operations will be open and fair to all.
- **Individual and Team Effort**  
We value the individual and a solid work ethic, and more importantly, we value the synergy of teamwork within departments, between departments and within the City Commission.
- **Leadership Effectiveness**  
We value progressive effective leadership and expect performance accountability at every level – our employees and citizens deserve the best.

## City Priorities

### City of Waycross – Current Priorities

These focus areas represent the City of Waycross's top priorities. Each day, our staff and leadership work diligently to advance these goals through strategic planning, collaboration, and service excellence.

#### Service Delivery

- Promote effective and transparent communication
- Deliver responsive and courteous customer service
- Operate with efficiency and proficiency
- Implement sound business models and practices
- Utilize data-driven decision-making

#### Infrastructure

- Maintain and improve city streets and roads
- Preserve public buildings and facilities
- Repair and manage overpasses and bridges
- Clean and maintain canals and alleys
- Enhance retention ponds and stormwater systems
- Identify and support sustainable revenue increases

#### Quality of Life

- Expand access to affordable housing
- Support local job creation initiatives
- Offer diverse and accessible recreation programs
- Provide community outreach and support services
- Foster civic engagement and community partnerships
- Address homelessness, gangs, and drug-related issues

#### City Workforce

- Invest in employee development and growth
- Prioritize effective budgeting for personnel needs
- Review and adjust employee compensation
- Promote positive morale and workplace culture
- Provide ongoing training and skill development
- Support promotion and advancement opportunities

These priorities guide our efforts to build a stronger, safer, and more vibrant Waycross for all residents and future generations.

City of Waycross  
Organizational Chart

**BUSINESS INTEGRATION  
& INFORMATION SYSTEMS**

**PATRICK SIMMONS**  
**DIRECTOR**  
**PSIMMONS@WAYCROSSGA.GOV**

The **Business Integration and Information Systems** Department is essential to the City of Waycross, overseeing communication platforms, IT infrastructure, and marketing initiatives. The department leads strategic efforts that promote transparency, improve efficiency, and enhance engagement with residents, businesses, and visitors.

From managing the City's website, social media, and digital outreach to maintaining secure networks and supporting department software systems, this team ensures smooth operations and connectivity across all city functions. It also contributes to key projects through data integration, workflow improvements, and public communication strategies. By aligning technology with community needs, the department helps Waycross operate more effectively and stay connected in today's digital world.

**2024 - 2025 Year in Review**

Key achievements and ongoing goals include:

- Reaching over 6.7 million views on Facebook, significantly increasing the City's social media presence and visibility.
- Implementing network infrastructure upgrades, including new switches and routers, to improve speed and reliability across departments.
- Expanding tourism promotions to attract more visitors and support local economic growth.
- Upgrading livestream capabilities to provide residents with improved access to meetings and public events.
- Transitioning to an enhanced version of Tyler Technologies for better service delivery, data management, and interdepartmental coordination.

The department continues to drive innovation in public service delivery and ensure that technology serves as a bridge between the City of Waycross and its community.

**CITY  
CLERK**

**JACQUALINE POWELL**  
**CITY CLERK**  
**JPOWELL@WAYCROSSGA.GOV**

The **City Clerk** serves as the official custodian of records for the City of Waycross, maintaining essential documents such as Commission meeting minutes, ordinances, and resolutions. The Clerk is also responsible for updating the City's Code of Ordinances to reflect all enacted changes.

In addition to recordkeeping, the City Clerk oversees the approval process for all business licenses, alcohol licenses, and one-day or special event alcohol permits issued by the City. The Clerk also serves as the designated point of contact for all Open Records Requests. While the Clerk receives these requests, relevant departments may be tasked with retrieving and compiling the requested information.

**2024 - 2025 Year in Review**

The City Clerk's Office played a vital role in supporting municipal operations and local businesses over the past year. Key accomplishments include:

- Issued 115 new Business Licenses
- Processed 69 Alcohol Licenses
- Increased business license compliance to approximately 85%
- Continued to maintain and manage all official city records and files to ensure transparency, accessibility, and regulatory compliance.

The Clerk's Office remains committed to serving the public, supporting city leadership, and upholding the integrity of municipal documentation.

**COMMUNITY  
IMPROVEMENT**

**MARC HAWKINS**  
**DIRECTOR**  
**MHAWKINS@WAYCROSSGA.GOV**

The **Community Improvement Department** is comprised of three divisions: Animal Control, Inspections, and Administration.

The Animal Control division is responsible for controlling all animal nuisance calls within the City limits. They are responsible for the day-to-day operations of the Waycross Animal Shelter.

The Inspection division consists of the building and code inspectors that inspect for applicable code compliance for all residential and commercial developments, additions, and remodels, and 5 code enforcement officers that ensure the compliance of all City codes and ordinances.

Within the Administration division, all planning and zoning, Housing programs including CHIP, CDBG, Land Bank, and GICH are handled. All of these duties take place on a daily basis in an effort to beautify, grow, and make The City of Waycross a place to live, work, and play!

**2024 - 2025 Year in Review**

This year, we made significant strides in both community development and public services:

**Animal Services:**

- 123 cats were taken in, with 100 adopted and 17 transferred to rescue organizations.
- 350 dogs were brought in, with 203 finding new homes and 48 sent to rescues.

**Building & Permitting:**

- 66 commercial permits were issued, totaling \$68,484,603.23 in project value.
- 113 residential permits were issued, totaling \$4,657,080.85 in value.

**Housing & Community Development:**

- We were awarded a \$500,000 CHIP Grant to support housing initiatives.
- Waycross was selected to become a GICH (Georgia Initiative for Community Housing) community, strengthening our commitment to affordable housing and quality of life.

Code Officers Sara Strickland and Malachi Christopher completed Level One of the Code Enforcement Certificate Program through the Carl Vinson Institute of Government. Their achievement reflects a commitment to professional growth and excellence in service to the City of Waycross.

**ENGINEERING**

**DAWN STRICKLAND**  
**COORDINATOR**  
**DSTRICKLAND@WAYCROSSGA.GOV**

The **Engineering Department** plays a vital role in the development and maintenance of the City's infrastructure. The department oversees construction inspections for water and sewer system improvements, as well as street and drainage projects to ensure quality, compliance, and long-term sustainability.

In addition to inspections, the department manages a range of permitting responsibilities, including soil erosion control, storm drainage, excavation activities, industrial pretreatment, and stormwater management. These regulatory functions help safeguard the environment and promote responsible development practices.

The Engineering Department also supports the administrative operations of the City's Water and Sewer Division, assisting with coordination, compliance, and project documentation. Their work ensures that utility services meet both community needs and regulatory standards.

**2024 - 2025 Year in Review**

Key accomplishments include:

- 7 new site plan reviews to support residential, commercial, and public development projects
- 5 flood zone inquiries addressed to ensure compliance with FEMA regulations and protect property owners
- 21 engineering drawings prepared for city infrastructure projects
- 25 technical drawings produced in support of other departments' initiatives
- 11 city streets paved, improving transportation safety and roadway conditions
- 4 alley closings coordinated to support redevelopment and property access improvements
- 3 official street closings processed
- 91 maps developed to support planning, zoning, and operational needs across city departments.

These efforts reflect the department's ongoing commitment to enhancing the built environment, improving public safety, and providing technical expertise citywide.

**FINANCE**

**GREG SMITH**  
**DIRECTOR**  
**GREGSMITH@WAYCROSSGA.GOV**

The **Finance Department** is responsible for the financial stewardship and operational support of the City of Waycross. Core functions include managing cash flow, preparing financial statements, developing the annual budget, and maintaining strong internal controls. The department also oversees billing systems, monitors disbursements, and supports external audit activities to ensure fiscal transparency and compliance.

The department's team includes budget officers, accountants, and purchasing staff, as well as cashiers who work directly with customers to collect payments and provide service. Staff also handle ordering supplies, managing the City's warehouse inventory, processing vendor checks, and assisting with payroll functions.

With responsibilities that touch nearly every aspect of municipal operations, the Finance Department plays a vital role in supporting city services and maintaining the City's financial health.

**2024 - 2025 Year in Review**

The Finance Department had a productive and efficient year, highlighted by the following accomplishments:

- Staffed by 10 full-time employees dedicated to managing the City's financial operations
- Processed payments for over 3,600 vendors
- Successfully passed the annual audit inspection on time
- Provided billing and support services for:
  - 5,671 residential water customers
  - 1,573 commercial water customers

These achievements reflect the department's commitment to accuracy, accountability, and high-quality service to both internal and external stakeholders.

**FIRE  
DEPARTMENT**

**JIM BLACKBURN**  
**CHIEF**  
**JBLACKBURN@WAYCROSSGA.GOV**

The mission of the **Waycross Fire Department** is the protection of lives and property through fire prevention, public education and the mitigation of emergencies and disasters, whether natural or manmade.

The Fire Department is comprised of 4 Fire Stations, and 54 personnel, 53 of which are certified Firefighters including the Fire Chief and the Fire Marshal. The Fire Department has one civilian personnel that serves as a National Fire Incident Reporting Specialist and Administrative Assistant.

The Fire Department has 17 shift personnel on duty 24 hours a day operating 4 frontline Pumper Trucks, 1 Ladder Truck, 1 Light and Air Unit and has 1 Reserve Apparatus.

The Fire Marshal's Office handles yearly Fire Inspections of all businesses, Fire Investigations, and is the point of contact for all Fire Safety Public Education events.

### 2024 - 2025 Year in Review

In 2024, the Waycross Fire Department responded to a total of 1,593 calls for service, demonstrating the department's commitment to protecting life and property in our community. Below is a breakdown of the various types of incidents handled throughout the year:

- 33 Building Fires
- 18 Vehicle Fires
- 43 Grass, Woods, and Outside Rubbish Fires
- 6 Dumpster Fires
- 701 EMS Calls, including vehicle accidents
- 239 Fire Alarms
- 78 Hazardous Materials Incidents (fuel and chemical spills, etc.)
- 465 Service Calls (including smoke detector installations, lockouts, public assistance, and community events)
- 10 Natural Disaster Responses

The department played a crucial role during Hurricane Helene, responding to 70 service calls in just 5 days following the storm. The average response time across all emergency and non-emergency calls was 3.92 minutes, reflecting the department's readiness and efficiency in serving the citizens of Waycross.

**HUMAN  
RESOURCES**

**MARISSA HENDRIX**  
**DIRECTOR**  
**MHENDRIX@WAYCROSSGA.GOV**

The Human Resources Department plays a critical role in managing and supporting the workforce of the City of Waycross. The department is responsible for a wide range of employee-centered services, including recruitment and hiring, onboarding, training and development, performance evaluation, and employee relations. HR also manages compensation programs, benefits administration, and payroll processing, ensuring accuracy and compliance with all applicable labor laws and regulations. Beyond day-to-day operations, the department works to promote a positive and inclusive workplace culture that values employee engagement, professional growth, and open communication.

Often referred to as the City's "people department," Human Resources is committed to supporting more than 200 employees and contributing to the overall effectiveness, morale, and success of the organization. Through its efforts, the department helps ensure that the City of Waycross attracts, retains, and develops a talented and dedicated public service workforce.

**2024 - 2025 Year in Review**

- Total number of employees: 203
- Number of retirements: 9
- Average employee tenure: 7.8 years
- Retention rate: 93.2%
- Reflects a stable, experienced workforce and strong organizational culture
- Committed to ensuring a qualified and diversified workforce to support high-quality city services

These results highlight the City of Waycross's continued investment in its people and its efforts to build a resilient, service-driven organization.

**POLICE  
DEPARTMENT**

**TOMMY COX**  
**CHIEF**  
**TCOX@WAYCROSSGA.GOV**

The primary mission of the **Waycross Police Department** is to preserve social order and protect the rights and safety of all individuals by operating within established ethical standards and the framework of the U.S. Constitution. The department is committed to delivering high-quality, professional law enforcement services through community-oriented policing strategies that foster trust, transparency, and collaboration.

The Waycross Police Department currently consists of 51 sworn officers who serve across four divisions: Uniform Patrol, Special Operations, Criminal Investigations, and Administration. These officers are supported by 13 non-sworn staff members who play vital roles in communications, records management, and department operations. Additionally, the department benefits from the service of 15 dedicated volunteers in its Auxiliary Police Officer section, enhancing its community outreach and support capabilities.

**2024 - 2025 Year in Review****Waycross Police Department – Key Statistics**

The Waycross Police Department remains committed to public safety, enforcement, and ongoing professional development. Below are some key statistics reflecting our department's activity:

- Total Calls for Service: 27,407
- Traffic Citations Issued: 2,369
- DUI Arrests: 69
- Speeding Violations: 192
- Warnings Issued: 2,310
- Accidents Reported: 868
- Total Training Hours Completed: 5,593
- Municipal Court Cases Processed: 2,355

These figures underscore the department's active engagement in maintaining order, promoting safety, and enhancing officer readiness through consistent training.

**PUBLIC  
WORKS**

**MATT ELWELL**  
**DIRECTOR**  
**MELWELL@WAYCROSSGA.GOV**

The **Public Works Department** is essential to the daily operations and overall quality of life in the City of Waycross. The department is responsible for maintaining all city streets, rights-of-way, drainage ditches, and stormwater canals, as well as ensuring the functionality of street signs and traffic signals. Public Works also oversees the collection and removal of yard debris, helping to keep neighborhoods clean and safe.

Additionally, the department manages over 200 city-owned vehicles and pieces of heavy equipment that support various city services, from sanitation to public safety. Public Works also plays a key role in the care and beautification of city-owned buildings, public parks, and cemeteries—ensuring these spaces are well-maintained, welcoming, and reflective of community pride.

Through their daily efforts, the Public Works team helps keep Waycross operating smoothly, safely, and beautifully.

**2024 - 2025 Year in Review**

This year, the City of Waycross made significant strides in maintaining our community's infrastructure and public spaces. From miles of city streets to vital public buildings, our efforts are part of our ongoing commitment to keeping Waycross beautiful, safe, and functional. Here's a snapshot of our accomplishments:

- 49 full-time employees and 8 part-time employees dedicated to maintenance
- 38 acres of public parks maintained
- 81 acres of cemeteries maintained
- 15 public buildings maintained
- 148 center lane miles of city streets maintained
- 27 miles of storm-water canals maintained

We're proud of the hard work and dedication that keeps our city running smoothly and looking its best.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Introduction:

A city's operating budget fulfills several important functions. It is a tool for financial management, a plan for providing services, a way to rationalize how tax dollars will be spent, and a mechanism for communicating policy preferences and goals to the public. This single document contains the city's financial, operational, and political plans for the next 12 months, making the budget one of the most important documents produced by a local government.

One overriding function of the budget is as a tool for communicating with the public. The budget communicates the city's fiscal and management policies and explains to residents how programs and services will be funded. Unlike private-sector organizations that are responsible for reporting profits and losses, public entities such as municipal governments are primarily responsible for accountability in spending public tax dollars. Public funds must be used as efficiently and effectively as possible to provide programs and services. The budget document is a statement of the city's priorities for providing the services that the public demands.

The budget cycle is a continuous process that requires the mission, values, goals, and priorities to be translated into programs and services. Budgeting requires the legislative body and executive branch to work together to decide on the most efficient and effective way to spend a city's revenues. The budget process involves conflict resolution, competition for scarce resources, and developing alternatives and compromises. Although each city has its own unique process for budget development, there are common elements in most budget processes. To better understand the budget process, it is important to be familiar with the terminology used in budgeting, the laws that govern the process, and the procedures that most cities in Georgia generally follow.

The purpose of this guide is to provide an overview of the budget process, the laws that affect budget preparation and adoption, and the process of preparing and adopting a budget. It is designed to give newly elected officials and those just learning about the municipal budget process general information about the roles of various appointed and elected officials in the budget process and to describe the steps involved in adopting a balanced general fund budget. Throughout this publication, we reference examples of forms, documents, graphs, and charts from actual city budget documents.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Key Terms and Definitions:

#### Terms and Definitions

##### The Budget Process

**Assets** – resources owned or held by a government that have a monetary value. Current assets can be made readily available to finance current operations or pay current liabilities, while fixed assets are long term and intended to be held, such as land, buildings, and equipment. General fixed assets are used in the operations accounted for by governmental funds and include all fixed assets not accounted for in proprietary funds or Trust and Agency funds.

**Budget** – a plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means (revenue sources) of financing them.

**Budget Calendar** – A budget calendar is a tool used to establish a timeline for the completion of each step in the budget process leading up to the new fiscal year. The budget calendar includes deadlines for departments to submit information to the budget officer, dates for advertising and conducting public hearings, and a timeline for adoption of the budget.

**Expenditure** – decreases in net financial resources. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service, and capital outlay, and intergovernmental grants, entitlement, and shared revenues.

**Expense** – decreases in net total assets. Expenses represent the total cost of operations during a period regardless of the timing of related expenditures.

**Fiscal Year** – the 12-month period in which a local government operates for financial accounting purposes.

**Fund** – a fiscal and accounting entity with its own set of financial accounts recording cash and other financial resources (assets), together with all related liabilities and changes in these assets and liabilities.

**Liabilities** – future debts or obligations owed by one entity (debtor) to another entity (creditor) payable in money, goods, or services.

**Revenue** – a city's annual income in the form of taxes, charges for services, fees, and government transfers which are used to meet expenses.

### Key Terms and Definitions:

#### Local Government Funds

**Governmental Funds** – make up most of the budget and account for records of all operations that are not normally found in private enterprise. There are five types of governmental funds:

- General Fund – government's basic operating fund used to set revenue and spending levels for routine, ordinary management and operation of the city government and the provision of most city services.
- Special Revenue Funds – funds from specific revenue sources that are limited for specific identifiable purposes.
- Debt Service Funds – funds designated for the repayment of long-term debt.
- Capital Project Funds – funds that account for the construction, rehabilitation, and/or acquisition of capital assets, such as new buildings, roads, or equipment.
- Permanent Funds – resources that cannot be expended but can be invested to generate additional revenue.

**Proprietary Funds** – funds that account for business-type activities of the local government, where a government provides a service and recovers the cost through user fees or charges.

**Fiduciary Funds** – funds used to account for assets held by a government in a trustee or agent capacity (e.g., pension plan).

Georgia Municipal Association - A Budget Guide for Georgia's Municipalities  
The Budget Process:

The Fiscal Year and Budget Calendar

The city operates on a fiscal year, an official 12-month period which typically begins on July 1, as established by the governing body. The city begins working on the upcoming fiscal year's budget several months before the start of the fiscal year to allow sufficient time for data collection, detailed review of financial data, and compliance with laws for public hearings and adoption of the budget by resolution or ordinance.

A budget calendar is a tool used to establish a time-line for the completion of each step in the budget process leading up to the new fiscal year. The budget calendar includes deadlines for departments to submit information to the budget officer, dates for advertising and conducting public hearings, and a time-line for review and adoption of the budget. The table below shows the FY26 Budget Calendar.

GMA Sample Fiscal Year 2026 Budget Calendar

Date	Action
Due By	
March 2	Budget officer prepares budget forms for distribution to departments.
March 2	Budget officer generates prior years actual and YTD estimates for revenues and expenditures for departments.
March 16	Budget officer distributes forms, including personnel, salary, and benefits information, to department heads.
March 23	Budget officer meets with each department head to discuss departmental needs and requests.
April 1	Budget officer prepares preliminary revenue estimates.
April 15	Departments return budget request forms to budget officer.
May 15	Budget officer reviews and adjusts each department's budget and prepares expenditure and revenue plans.
May 15	Begin executive review and development of final budget content (budget officer, department heads, manager or CEO and finance committee).
May 22	Budget officer submits the proposed budget to the city council for review and makes it available to the public. Notice of availability of proposed budget and the public hearing date, time and location are placed as ad or article in the newspaper at least one week prior to the public hearing
June 8	Conduct public hearing.
June 15	End of council review period; budget officer makes any needed adjustments.
June 22	Advertisement of the council meeting to adopt budget placed in the newspaper (may advertise with ad).
June 30	City council adopts the budget by resolution or ordinance
July 1	Fiscal year begins

*\*Sample Budget Calendar\**

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Guiding Principles in Budget Development

When developing the city's budget, municipal elected and appointed officials work to allocate limited resources to provide services efficiently and effectively. The key factors that influence city budget development include strategic planning goals and objectives, departmental revenue and staffing limitations, mandated programs and services, and changes to service levels.

Examples of goals a city may have in budget development include:

- maintaining service levels without raising taxes
- cutting spending by a certain percentage across all departments or for specific programs
- increasing employee compensation to attract and retain qualified employees
- increasing parks and recreation service levels and enhancing green spaces.

Whatever the goals of the governing authority may be, departments and the budget officer must understand them so they can be taken into consideration during the budget process.

### Capital Projects Budgeting

Local governments are required to adopt and operate under a project-length balanced budget for each capital project fund in use by the government. In addition to the statutorily required project-length budget, many cities prepare a five-year Capital Improvement Plan (CIP). Although the CIP is not required by law and not every city needs a CIP, it can be a useful tool, particularly if the city has multiple, multi-year capital projects that will require funding from a variety of sources (e.g., SPLOST, TSPLOST, bonds). The CIP is a helpful planning document that demonstrates future needs and can be used to guide decisions on how the city will pay for capital improvements over several years. To learn more about CIP and obtain guidelines for capital planning policies, visit the Government Finance Officers Association (GFOA) website.

### Enterprise Funds

Proprietary funds are used to account for governmental activities that are similar to the private sector (e.g., a water utility). These "business-type" activities should bring in sufficient revenues to pay for themselves, and they should generate additional revenues or "make a profit". These additional revenues are necessary and important because they pay for required maintenance and improvements that are essential to providing the service associated with the enterprise activity. Inadequate revenues will have to be subsidized by the general fund, thereby causing a drain on general tax revenues.

### Fund Balance

Fund balance is the difference of available funds after accounting for a government's assets minus its liabilities and deferred outflows. Restricted fund balance is the portion of total fund balance that is either non-spendable or restricted for a particular use. Unrestricted fund balance is the portion of that total fund balance that is not restricted and commonly used in governmental budgets as a measure of the financial resources available. It is important to establish a policy governing the level of unrestricted fund balance in the general fund to plan for and alleviate current and future risks (e.g., revenue shortfalls and unanticipated expenditures) and to ensure stable tax rates.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### The Budget Process: Who Does What

Budget development, adoption, and execution is not just an annual exercise - it is a year-round cycle that involves the interaction of many individuals. These individuals must work together to identify service needs, design strategies to meet these needs, and develop detailed revenue and expenditure plans to carry out these strategies.

#### Finance Director

- Responsible for the coordination of each step in the budget process including development, adoption, execution, and auditing.
- Compiles budget requests from all departments into a single city-wide document and creates an initial balanced draft budget.
- Ensures that the budget draft follows all financial, accounting, and legal standards.

#### Department Heads

- Provides departmental level budget requests to the budget officer by a predetermined deadline.
- Must estimate appropriate levels of funding for the department's staffing needs and service provision.
- In some cities, department heads must justify budget requests through demonstrated increases in departmental performance or outputs.

#### City Manager

- Reviews the preliminary draft of the budget.
- Determines adjustments that need to be made based on knowledge of the political goals of the governing body.
- Responsible for presenting a balanced budget to the Mayor and/or City Council for their review, feedback, and approval.

#### Legislative Role: Mayor and Council

- Provide direction on the budgeting process throughout the fiscal year as they establish priorities and goals for the city.
- Review proposed budget and work with the budget officer and city manager to address any concerns or questions that arise from the preliminary budget.
- Vote in a public meeting on the final budget to be adopted for the next fiscal year.

#### Public Input

- In some cities, the public provides input throughout the budget process by participating in citizen budget committees or other citizen engagement programs.
- Formal public participation in the budget process can range from in-person workshops to online surveys to identify the public's preferences.
- O.C.G.A. §36-81-5(f) requires a public hearing to be scheduled at least one week before the council meeting to adopt the budget resolution or ordinance.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process

Now that the roles of all players in the budget process have been described, the next section of this guide will focus on explaining basic steps in the process. As stated earlier, each city has a slightly different approach to developing the budget document. Likewise, the document produced by each city will vary in appearance and complexity. This section describes the steps that are commonly taken in most Georgia cities in the development of the budget.

### Step 1: Departmental Budget Request

Several months before the beginning of the next fiscal year, the budget officer notifies department heads of all requirements for the upcoming budget process. This can be accomplished through a meeting or workshop where the budget officer provides department heads with:

- Instructions for submitting budget requests for the next fiscal year
- Deadlines for all steps in the budgeting process
- Year to date expenditures for each department
- Departmental budgets from previous years

Departmental budget proposals should include requests for personnel, operations, and capital needs for the upcoming year. Personnel requests include the salaries, benefits, and any other costs related to current or expected new employees. If a department head anticipates hiring for new positions, a justification should be provided for the additional employees and the salary for those positions. Operating expenses are the costs for everyday operations within the department and include all costs related to the provision of service and supplies. Capital outlays include equipment or other tangible property that a department needs to purchase which exceeds a given dollar amount and expected lifetime. These budget requests may be determined using several different methods including:

- An incremental approach based on costs from recent years with small changes
- Yearly adjustments for inflation
- Internal Service Funds – City predetermines the cost of support activities and sets aside that money each year for all departments
- Standard Costs – Estimated cost of supplies for one employee multiplied by the number of employees

Some cities operate with council committees responsible for the oversight of assigned departments within the city. If so, the chair or full committee may be involved with the budget request which they oversee along with the department head.

### Step 2: Finance Director Review

Once all departments have submitted their budget requests, the finance director is responsible for reviewing them. The finance director must understand the management and fiscal policies of the city, the financial condition of the city, and the political climate that influences the budget process. The finance director creates a single budget spreadsheet based on the requests from departments and the

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process

direction given by the governing body. Expenditure details in this spreadsheet will include information on prior-year actual expenditures, budgeted expenditures for the current fiscal year, actual (estimated) expenditures for the current fiscal year, and a recommendation for the new fiscal year. This detail will provide the city manager and elected officials with a snapshot of spending in recent fiscal years and gives some perspective for the budget request.

### Step 3: Revenue Projection

The budget officer and finance department for the city is responsible for predicting the revenue sources and amounts for the upcoming fiscal year. Cities may rely on several different types of revenue including:

- Property taxes
- Sales taxes
- Excise taxes
- Service charges and fees
- Fees for licenses and permits
- Fines and forfeitures
- Intergovernmental revenue

Most general fund revenue estimates involve a thorough examination of historical revenue data, taking into account economic and financial conditions in the city, making various assumptions about collections in the upcoming year, and applying good judgment. The best guidance for projecting revenues in any category is to be conservative in making estimates. It is much better to project a revenue number that is too low than one that is too high, which would result in a deficit.

Several different forms of revenue estimation may be needed to accurately predict revenues for up to 18 months in the future. The following table lists revenue estimation models used by some local governments. Regardless of which model your city uses, it is helpful to know about the techniques available for use in completing this task.

#### Revenue Estimation Models

*Educated Estimation* - An estimation based on recent revenue levels and any changes that would affect the revenue stream, including demographic trends, revisions to tax regulations, changes in tax or fee enforcement, and economic cycles. Forecasters often must make an educated guess with the information they have available.

*Deterministic Spreadsheets* - Uses equations with known coefficient values, such as the city millage rate, to model the assessment and valuation of a particular tax or fee.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process

*Break-Even Analysis* - This model uses the break-even point, the point at which revenue received equals the costs associated with receiving the revenue, to assess the cost-effectiveness of government programs, as well as to structure fees and rate schedules.

*Different Forms of Averaging* - Revenue estimates are made by averaging data points from a dataset of historical revenue information.

*Trending Methods* - Estimates future revenue based on a relationship between the actual revenues for past years and their comparable forecast estimates.

*Linear Regression Analysis* - Uses historical data to form a mathematical relationship between past revenue levels and one or more explanatory factors; this relationship is then used to estimate expected future revenue levels.

*Systems and Models of Regression Equations* - A complex forecasting technique used to combat the growing size and contribution of revenue sources, whereby several linear regression equations are linked together into a system with a multitude of factors to explain economic conditions.

For the easiest review, revenue and expenditure data should be entered into a computer spreadsheet in a line-item format. A history of prior-year actual revenues should be included in this chart to show the trend in revenues for the previous two or three years compared to the current revenue estimate. Revenues and expenditures are balanced before an executive review of the budget.

To develop a financially sound budget that will withstand economic fluctuations, generally accepted budgeting and finance practices recommend that city officials should attempt to diversify revenue sources so that they do not become overly dependent on one particular revenue source. Cities should also routinely evaluate revenue and fee levels to make sure they are maximizing revenues from all sources. The four basic considerations cities should make when deciding how to pay for city services are:

- Acceptability – city officials should consider how the community as a whole would be impacted by and react to the city's use of a particular funding source.
- Stability – city officials should attempt to maintain revenue sources that will remain stable regardless of economic fluctuations or political changes.
- Self-Sufficiency – cities should not become overly dependent on state or federal grants to fund services.
- Cost Efficiency – city officials must constantly perform a balancing act with revenues to be sure that the best quality of services is provided most efficiently.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Step-by-Step Activities in the Budget Process

#### Step 4: Review by City Manager, CAO, and/or Mayor

The “first draft” of the budget is reviewed by the city manager, CAO, and/or mayor, whose primary goal in the budget review process is to make sure that the policies and priorities set by the mayor and council are met. The executive will review recommended departmental budgets to ensure that each one is appropriate and not excessive. Department heads may be asked to sit in on the budget review process at this stage to explain any major increases or decreases in budget requests. The executive’s goal is to anticipate any questions the council may have and prepare responses to these questions. Adjustments to the budget are entered by the budget officer, and the modified budget is prepared for review by the mayor and council. Some cities may use a finance committee to review and make budget recommendations before submitting a proposed budget to the city council.

#### Step 5: Legislative Body Review

The manager will explain how the mayor and council’s priorities are being met through the recommended budget. The presentation should also include an explanation of any changes in the millage rate or anticipated changes in other revenue sources. At this time, the city council may choose to add or delete items from the budget or make other adjustments. The city council seeks to adopt a balanced budget that fulfills its established goals.

#### Step 6: Budget Public Hearing

The requirements for advertising and conducting public hearings for local government budget adoption are listed in O.C.G.A §§36-81-5 and 36-81-6 and summarized below:

- On the day that the proposed budget is submitted to the city council for consideration, a copy of the budget must be placed in a public location that is convenient to the residents and made available to the media, upon request.
- During the week the proposed budget is submitted to the council the city must have a statement published in the local newspaper of where the proposed budget is available for viewing along with a notice of the date, time, and location of a public hearing for any resident to provide comments before the governing authority. The statement shall be a prominently displayed advertisement or news article and shall not be placed in that section of the newspaper where legal notices appear. Notice shall be published at least one week before the public hearing.
- At least one week prior to the meeting of the city council at which adoption of the budget ordinance or resolution will be considered, the city council must conduct a public hearing, at which time any persons wishing to provide comments on the proposed budget may appear.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Step-by-Step Activities in the Budget Process

#### Step 7: Budget Adoption

At least one week after the public hearing, the city council may move forward with adopting a balanced governmental fund budget by ordinance or resolution at a public meeting advertised in a local newspaper (not in the legal section) at least one week before the meeting. To save on advertising costs, all notice requirements may be combined into one ad. It is also good practice to post the information on the city's website. The format of the final budget and ordinance or resolution is up to the discretion of the city, as long as it complies with state law.

**Step 8: Local governments are required to post their budgets which are in excess of \$1 million to the Carl Vinson Institute of Government.**

#### Step 9: Budget Implementation

Once the budget is adopted and the new fiscal year begins, the plans outlined in the budget may be implemented. Department heads carry out their approved budgets, and appropriations are spent to deliver services. The city manager or budget officer is responsible for exercising general fiscal control over the budget, making sure department heads stay within their budgets, providing regular reports on budget activity to departments, and tracking actual revenues against forecasted amounts. Monthly budget reports are also provided to elected officials.

Budget implementation and monitoring systems vary in complexity among city governments. These systems allow city officials to:

- monitor, adjust, and control spending
- maximize effectiveness and efficiency, and
- develop long-term revenue and expenditure strategies.

Even though budget implementation practices and terminology vary from city to city, they consist of five basic components:

- Authorization – the law which permits spending for a specified purpose.
- Appropriation – the legal authority to spend up to a certain amount during the budget period (in cities, the budget document is the source for most appropriations).
- Allocations – used by the budget officer to provide further detail to the appropriations approved by the city council (e.g., lump-sum appropriations may need to be further divided into allocations for specific programs the department operates).
- Allotments – divide appropriations or allocations (if any) into periods such as quarters or months of the current fiscal year (allotments help assure that money is available to fund operations throughout the year).

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process

- Adjustments – changes to the budget may be necessary as revenues and/or spending varies from the approved budget. Procedures for making adjustments vary from city to city. Unless provided in the city charter or by city ordinance, state law allows some flexibility to make minor changes to the budget while maintaining sufficient control over the use of resources.

### Legal Level of Control

O.C.G.A. §36-81-3(d) states, "Nothing contained in this Code section shall preclude a local government from amending its budget to adapt to changing governmental needs during the budget period. Amendments shall be made as follows unless otherwise provided by charter or local law:

1. Any increase in appropriation at the legal level of control of the local government, whether accomplished through a change in anticipated revenues in any fund or a transfer of appropriations among departments, shall require the approval of the governing authority. Such amendment shall be adopted by ordinance or resolution. [Click here for a Sample Ordinance to Amend the Budget.](#)
2. Transfers of appropriations within any fund below the local government's legal level of control shall require only the approval of the budget officer; and
3. The governing authority of a local government may amend the legal level of control to establish a more detailed level of budgetary control at any time during the budget period. Said amendment shall be adopted by ordinance or resolution."

The legal level of control means the lowest level of budgetary detail at which a local government's management or budget officer may not reassign resources without the approval of the governing authority. Per O.C.G.A. §36-81-2 (14), the legal level of control shall be, at a minimum, expenditures for each department for which a budget is required.

### Spending Authority

Every city in Georgia has its practice for spending funds appropriated in the budget, but generally, the following steps are taken:

- Each department head has the discretion to obligate funds that have been budgeted. Competitive bidding is used to receive quality goods and services at the lowest price.
- Department heads request/initiate a purchase order which identifies the items being purchased, the budget line item the payment will come from, and the name of the vendor who will receive payment. [Click here for a sample purchase order.](#)
- Purchase orders are verified by the designated procurement officer to ensure that all applicable protocols and laws are being followed.
- Transactions are recorded according to the city's accounting system for financial reporting purposes.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process

### Expenditure Controls

Spending is subject to many limitations and controls beyond the procedures just described. The purpose of using budgeting practices and Generally Accepted Accounting Principles (GAAP) is to control spending and to generate a record of accountability that proves city funds are spent as directed by the mayor and city council.

Some of the most commonly used techniques to control expenditures include:

- Line-item appropriations - spending is confined to very specific purposes (category) approved during the budget process. This technique is the most costly and time-consuming control measure, but it is useful if a situation is politically sensitive or there is (actual or perceived) potential for waste, fraud, or abuse.
- Unallocated reserves – the city manager, acting through the budget officer, ensures that sufficient funds are set aside and available to meet expenditure demands throughout the year in the event of unforeseen circumstances.
- Encumbrances – funds designated out of appropriations that can only be spent for specific purchases in the future and the funds are no longer available for other uses unless the encumbrance is canceled. A purchase order is the most common encumbrance and guarantees that sufficient funds are available for planned purchases.
- Position control – this technique is used to ensure that all new personnel is hired only for positions that have been authorized and approved in the budget.
- Ceilings and freezes – this technique is the final and most drastic control measure. Ceilings impose an arbitrary limit on expenditures for some or all purposes, while freezes represent a prohibition on further spending for some or all purposes. Usually, these measures are only used during severe fiscal or political crises.

### Step 10: Auditing

The final part of the annual budget cycle is the annual external audit of all city financial records. The audit involves an examination of the city's accounting systems, procedures, programs, and financial data from a city. The final product is a report issued by an independent auditor describing how well a local government's financial statements describe its financial condition and the results of its operations.

Georgia law (O.C.G.A. § 36-81-7) requires cities with a population of over 1,500 or expenditures of \$550,000 or more to complete an annual audit of all city financial statements. Cities with expenditures less than \$550,000 are required to complete an audit every two years, and the audit must cover both fiscal years. In place of the biennial audit, cities with expenditures less than \$550,000 may elect to prepare an annual report of agreed-upon procedures.

The auditor reviews financial statements to provide an opinion on the city's financial condition, its control over financial reporting, and to test for the city's compliance with provisions and requirements of federal, state, and local laws, regulations, contracts, and procedures.

## **Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Step-by-Step Activities in the Budget Process**

The State Auditor has developed several documents to assist local government officials and certified public accountants performing audits and agreed-upon procedures for local governments to ensure that all audits meet state requirements. These documents can be viewed in the Audit and Accounting Resource Library.

### **Performance and Program Audits**

Cities are not required to conduct performance or program audits, although some cities that employ management or financial analysts may choose to conduct them. Performance audits are designed to measure the efficiency of the performance of various activities in each department. Program audits are useful in evaluating the overall effectiveness of city programs. Both program and performance audits help city officials make better decisions about whether services and programs are worth the investment of revenues by the city.

### **Accounting Systems**

Government officials entrusted with public resources have a responsibility to provide a full accounting of their activities. Accounting systems provide the tools necessary for city officials to assemble, analyze, track, and report financial information so that it can be used for planning, decision making, compliance, and control. The purpose of accounting is to provide financial information that is accurate, complete, timely, and can be understood by users. The four parts of an accounting system include:

- Source documents and forms – include invoices, receipts, time and attendance reports, contracts, and purchase orders which record the details of every financial transaction including authorization for each transaction.
- Journals – summaries of all transactions of a certain type in chronological order (e.g., payroll journals record all payments to employees).
- Ledgers – based on the summary totals in journals, these show the balance in any revenue, expenditure, or other account at any given time.
- Procedures and controls – include forms and instructions for classifying, recording, and reporting financial transactions in source documents, journals, and ledgers.

### **Financial Reporting Requirements: Uniform Chart of Accounts**

In 2001, all local governments in the state were required to adopt and use the state developed uniform chart of accounts in their accounting records, audited financial statements including CAFRs, and reports to state agencies for consistency in reporting. They are also required to classify their transactions in conformity with the fund, balance sheet, revenue, and expenditure classification descriptions contained in the uniform chart. The Uniform Chart of Accounts is an evolving document, and cities should be aware of updates to the chart. The most recent update is available on the Department of Community Affairs' (DCA) website.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Components of the Budget Document

Depending on your city's size and the number of staff available, the budget document can range from very simple to very sophisticated. Not every city chooses to prepare a formal "budget document". Some cities may simply compile departmental budget reports and attach a summary of city revenues and expenditures for all fund and revenue categories. Cities that prepare a more formal budget document use different formats, but generally include the following components:

#### Budget Message

Usually appears at the front of the budget document and is signed by the mayor or city manager. Summarizes the city's priorities for the upcoming fiscal year and explains any major changes in revenues and/or expenditures. [Click here for a Sample Budget Message](#) (adapted from an Athens-Clarke County budget document).

#### Budget Summary

Goes into more detail than the budget message and further explains some of the issues, initiatives, or major changes mentioned in the budget message. Presents an overview of revenues and expenditures by fund, as well as personnel information for the city. [Click here for an example of a Budget Summary](#) (adapted from a Milton budget document).

#### Departmental Budget Information

Includes each department's mission, performance goals, and information on personnel in the department. A summary of expenditures including the previous year, current year, and budgeted amount for the next fiscal year should be provided. A narrative section is also included to highlight operational or service delivery successes or issues with quantitative performance indicators. [Click here for an example of a Departmental Budget Summary](#) (adapted from a Milton budget document).

#### Optional Sections

Can include sections on capital budgeting, debt service, contributions to other agencies, a glossary of budget terms, or demographic information for the community.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Budget Types

Six basic types of budgets can be used to help city officials control waste and plan for the efficient use of resources:

- Line-item (traditional)
- Planning, programming, budgeting system (PPBS)
- Performance
- Zero-based
- Priority-based
- Participatory.

It is advantageous for a city to use a combination of different budget types and not fully rely on one method. The following information explains each budget type, including its advantages and disadvantages.

#### Line-Item Budget

The budget type most often used by Georgia's cities is the line-item budget. The line-item budget lists each expenditure by account classification as identified in the Uniform Chart of Accounts. This budget type is useful for exercising control over spending in the current fiscal year.

#### Advantages

- Easy to produce
- Provides tight control over operational expenses
- Easily adjustable from year to year through incremental changes

#### Disadvantages

- No requirement for departments to consider alternative methods of service delivery
- Budgeting is not connected to performance measures or the value of the outcomes of specific programs
- The incremental approach does not require justification for long-standing programs.

#### Planning, Programming, Budgeting System

The planning, programming, budgeting system (PPBS) organizes proposed expenditures according to broader overall functions. This format redirects the focus from what the city is buying to what services the city is providing. This budgeting system defines the goals of an agency and classifies the organizational activities that contribute to each goal. The PPBS budget is an excellent tool for planning. An example of an excerpt from a program budget might look like the following:

Objective: Maintenance and construction of public facilities – to provide safe and efficient public access for vehicular and pedestrian traffic; prompt disposal of stormwater, wastewater, and solid waste; a clean and sufficient water supply; and clean, well-maintained public buildings.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Budget Types

- Service area 1 – administration and support (to provide general planning, coordination, supervision, and control of the activities necessary to accomplish this key objective)
- Service area 2 – public access (to provide and maintain vehicular and pedestrian access to private property while maintaining a safe, efficient flow of traffic on city streets; and to provide and maintain parking facilities considering short term and long-term needs)
- Service area 3 – stormwater and wastewater (to provide a system for disposing all stormwater and wastewater to minimize the frequency and severity of flooding and pollution)
- Service area 4 – solid waste collection and disposal (to provide a system for the regular and efficient collection and disposition of all solid waste)
- Service area 5 – water supply and distribution (to provide and maintain facilities for storing, treating, transporting, and measuring water)
- Service area 6 – public buildings maintenance and construction (to provide for maintenance and construction of city-owned buildings not used and budgeted specifically for one service area)."

#### Advantages

- Facilitates better understanding of the cost of each activity or service that a department provides
- Can be used to determine the most cost-effective method for service delivery
- Connects service delivery to the outcomes a city expects from each service area

#### Disadvantages

- Can be difficult to budget for activities that span multiple departments
- Process of developing service areas can be time-consuming and is not valuable if policymakers are not dedicated to learning the new system
- Utilizes a simple line-item budgeting style for each service area.

#### Performance Budget

Performance budgets emphasize departmental performance objectives and accomplishments rather than the purchase of resources. These budgets present the cost of performing activities during the budget year. A performance budget will look at issues such as productivity and will include performance indicators such as effectiveness and demand for services. The budget process has the dual role of providing funds for services and establishing performance goals. The goal of the performance budget is to emphasize the efficiency and effectiveness of services and increase accountability among departments. Click [here](#) for a section of a Sample Performance Budget and see the list below for Performance Budgeting Components:

- Expenditures are broken down into organizational sub-units (distinct programs and activities)
- A written summary of what each organizational unit does
- A summary of personnel resources:
  - Number of full-time employee positions
  - Actual expenditures for at least the previous two years
  - Estimates for the current and coming year
- Listing of major goals and objectives for the current and coming year

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Budget Types

- Performance indicators – actual information for at least the previous two years and estimates for the current and coming year:
  - Workload – number customers served, miles of streets maintained, businesses inspected, etc.
  - Efficiency – cost per unit
  - Effectiveness – levels of satisfaction, % of targets met, etc.
- Explanation of factors significantly affecting the budget
- An organization chart showing major activities around which resources are allocated.

#### Advantages

- Used as an accountability tool for the efficiency and effectiveness of programs and departments
- Directly connects the cost incurred by cities to quantitative outputs of service delivery
- Provides additional transparency on the use of public funds and the purpose of spending

#### Disadvantages

- Does not account for the qualitative nature of services provided
- Requires a complex and systematic accounting system that is costly and time-consuming to implement and difficult to analyze
- Activities in departments dealing with broader social conditions are not easily quantifiable.

#### Zero-Based Budget

A zero-based budget system (ZBB) annually challenges and requires departments to justify and defend their programs. For each program, the department must show the various levels of service that could be provided with different levels of funding — including zero funding, alternative courses of action, the consequences of funding the service at different levels, or not funding it at all. The purpose of using a ZBB system is to make government more flexible, to eliminate programs that are not productive, and to improve effectiveness by forcing department heads to consider their total programs each year. Click [here](#) for a Sample Departmental Decision Package for a ZBB system.

#### Advantages

- Requires yearly consideration of service delivery methods and prioritizing
- Places focus on improving past practices and creating more efficient methods of service delivery
- Gives decision-makers an idea of what services are necessary and what could be trimmed back in case of budget cuts

#### Disadvantages

- It is not realistic to fully zero out programs every year
- Requires department heads to fill out paperwork and justify the spending in each program or service area
- Determining the most efficient plan of service delivery does not consider the actual value of the service.

## Georgia Municipal Association - A Budget Guide for Georgia's Municipalities

### Budget Types

#### Priority-Based Budgeting

Zero-based budgeting paved the way for a priority-based budgeting system. This budget type asks executives, department heads, and program managers to decide which activities and services matter most and to identify the revenue source to support these priorities. This requires a difficult examination of which activities and services are most critical for members of the community, and which of these can have a large impact for a relatively small investment. Priority-based budgeting is especially helpful in the context of reduced funding. The advantages and disadvantages are similar to those for zero-based budgeting.

#### Participatory Budgeting

Participatory budgeting (PB) is an innovative tool that can be used with any of the above budget formats and gives constituents real decision-making power in deciding the public budget. It does not require a new revenue stream, but rather uses existing funds which are not committed to fixed expenses; these are typically discretionary public funds. Funding streams that matter to communities that are least represented in government should be emphasized, such as schools, housing, and community programs. Typically, participatory budgeting allocates 1-15% of the total budget; it does not have to stretch into the millions of dollars to be effective or worthwhile, but enough funds must be allocated for invitations to be compelling and for the process to have a visible impact on the community.

Participatory budgeting can take many different forms, but all programs have the same basic traits:

- Information sessions: residents are given access to information about the cost and effect of government programs
- Neighborhood assemblies: residents articulate local budgetary needs
- Budget delegates: some residents sign up to directly interact with government officials and draft viable budget proposals
- The vote: a larger group of residents vote on which projects to fund.

#### Advantages

- Increases transparency and accountability in the budget process and can raise the level of trust in government
- Establishes a greater sense of democracy in the decision making on the use of public funds
- Budget decisions are more tailored to the community and better account for the needs of historically disenfranchised groups.

#### Disadvantages

- Participation in budgeting may not be possible for residents who do not have the time to give to the process
- Participants may only be involved in the process for a single issue that most directly affects them or their community
- Assemblies or councils are easily dominated by the loudest voice in the room if formal procedures are not adhered to.

## **Georgia Municipal Association - A Budget Guide for Georgia's Municipalities Budget Types**

For more information on the process, or if you are interested in applying participatory budgeting, the Participatory Budgeting Project (PBP) offers assistance and has supported most participatory budgeting processes in the United States. Atlanta is one city in Georgia that has successfully implemented elements of participatory budgeting.

### **Budget Types: Summary**

All of the budget types described in this publication are acceptable for use in municipal governments. Each type provides a different orientation to help city officials make rational budget choices. While none of the budget types listed offers a perfect solution to ensure that resources are used most effectively, each system tries to organize information so that decision-makers can make reasonable choices. Whichever system your city uses, all players in the budget process must “buy into” the system, or it will likely fail.

# **Fiscal Year 2026 Approved Budget**

## Divest & Invest

This year's fiscal theme is **"Divest and Invest."**

We are committed to divesting from outdated policies and procedures that prioritize aesthetics over impact—those that have not demonstrated meaningful value for our community. Instead, we are investing in modernization, innovation, and bench-marking practices that improve the effectiveness of our day-to-day operations.

Our focus is on smart, data-informed decisions that enhance service delivery and ultimately improve the quality of life for the residents of Waycross.

## Budget Calendar for Fiscal Year 2026

The annual budget preparation is a thorough process, with a great deal of attention to ensuring public safety and services are met, current and future obligations are considered, and fiscal responsibility is upheld. The following is a summary of fiscal year 2026's budget development:

Preparation of the city budget is aligned with the schedule set by Charter and City Commission, and with the state statutes of Georgia.

The City Charter establishes the fiscal year of the city to begin on the first day of July of each year and end on the thirtieth day of June of the following year.

The budget process begins each January with Department Heads submitting an expenditure request, followed by reviews from the Finance Director and City Manager. Meetings with Department Heads to review and discuss the submitted expenses occur if needed.

Budget meetings are scheduled with the City Commission to provide context to the proposed budget and to receive feedback from Commissioners.

The budget represents a complete financial plan for all activities of the city for the ensuing fiscal year. All estimated income and proposed expenditures are detailed and presented.

A public hearing on the proposed budget shall be held before its final adoption.

The City Commission may make additional appropriations during the fiscal year for unanticipated expenditures.

### Fiscal Year 2026 Budget Process

January - April - The City Manager, Finance Director, and Department Heads met several times to review and discuss requests, resulting in adjustments

January - April - Finance Director prepared a proposed budget for City Commissioners' consideration

May 20th - A budget meeting held with City Commission to review and discuss the proposed budget

June 3rd - A public budget meeting held with the public and City Commission to review and discussed proposed budget

June 17th - City Commission approved the adoption of Fiscal Year 2026 budget during the Commission meeting

Fiscal Year 2026 budget begins July 1, 2025

## Conclusion

The FY2026 Budget reflects the City of Waycross's continued commitment to fiscal responsibility, strategic growth, and service excellence. Guided by data-driven decision making and aligned with our long-term goals, this budget supports essential services, strengthens infrastructure, and invests in quality of life improvements for all residents.

With the stewardship of our elected officials and the dedication of over 200 city employees across 7 departments, we remain focused on building a resilient, efficient, and inclusive city. We thank our community for their continued trust and engagement as we move Waycross forward.
